2016 Outstanding Teaching Assistant Award

Official Notice of Nomination

Nominee: James Bach

Department: Computer Science

Course: COP3330, Fall 2015

Basis for Nomination:

James was an outstanding TA for my COP3330 class this semester. He went above and beyond to make sure students excelled in the course. He even offered advice for future internships at a company he previously worked for. He also taught us things that were really useful for future classes.I hope to have him as a TA or an actual professor at sometime in the future!
